

Lost Manhood

Varicocele, Impotency and Waste of Manly Power Are Quickly and Forever Cured by the Grand Product of Nature, Dr. McLaughlin's Electric Belt
Send for the Free Book

Free Electric Suspensory for Weak Men

This Electric Suspensory carries the current direct to the weak parts and cures all weakness of men, varicocele, etc. It is free. It develops and expands all weak organs and checks unnatural drains. No case of Failing Vigor, Varicocele or Debility can resist the powerful Electric Suspensory. It never fails to cure. It is free with Belts for Weak Men.

No man should be weak; no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth, when there is here at hand a certain cure for his weakness, a check to his waste of power.

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer, are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My electric Belt, with Special Electrical Suspensory (free), will restore your power. It will check all unnatural drains and give back the old vigor of youth.

W. S. McCuistien, Los Angeles, Cal., writes: "I am more than pleased to be able to tell you that after wearing your belt but one month I was completely cured. There is not the least trace of my old trouble remaining, and it is my opinion that your treatment is the greatest remedy extant. I assure you that it will be a great pleasure for me to recommend the belt whenever I can, for it has saved my health."

This drain upon your power causes Kidney Trouble, Rheumatism and Stomach Afflictions. You know it's a loss of vital power and affects every organ of the body. Most of the ailments from which men suffer can be traced to it. I have cured thousands of men who have squandered the savings of years in useless doctoring.

My Belt is easy to use; put it on when you go to bed; you feel the growing heat from it (no sting or burn, as in old-style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

G. T. King, Fresno, Cal., writes: "I used your belt for ten weeks and am glad to tell you that it has cured me of lame back, kidney and bladder trouble. I am now sound and well, in perfect health and weigh more than I ever did. My appetite is better than it has been for years. Your belt is all and more than you claim it to be."

An old man of 70 says he feels as strong and young as he did at 35. That shows how it renews the vigor of youth.

It cures Rheumatism, Sciatic Pains, Lumbago, Kidney Trouble. It banishes pain in a night, never to return.

E. B. Miller, Crompton avenue, Los Angeles, Cal., writes: "I have used your high grade belt for two months for lame back, rheumatism and weakened nerves, and am now a well man. I have gained over six pounds in weight, and feel as strong and hearty as I ever did. All my friends acknowledge that I have had a miraculous cure, as I was almost a wreck when I began to use the belt."

What ails you? Write and tell me, and no matter where you are I think I can give you the address of some one in your town that I have cured. I've cured thousands, and every man of them is a walking advertisement for my Belt.

Every man who ever used it recommends it, because it is honest. It does great work, and those whom I have cured are the more grateful because the cure cost so little.

Every man who uses my Belt gets the advice and counsel of a physician free. I give you all that any medical man can give you and a lot that he can't.

Try my Belt. Write me today for my beautifully illustrated book, with cuts showing how my Belt is applied and lots of good reading for men who want to be "The Noblest Work of God"—A MAN. Inclose this ad, and I will send this book, sealed, free.

CAUTION.—Beware of medical concerns offering "Electric Belts Free," and the Professor with his cheap Belt. This offer is only a trick to foist a package of medicines upon you. C. O. D. Write to me for an explanation of the trick.

FERNANDEZ MUST PAY

Court Holds That Turpentine Is Dangerous.

February Term Will Be at an End Tonight.

The Juries Are Discharged and Thanked—Eben Low Doesn't Want Receiver.

Judge De Bolt decided yesterday that spirits of turpentine was an explosive and dangerous to public safety and Manager Fernandez of the Hawaiian Hardware Co. was fined \$50 and costs. An appeal to the Supreme Court was taken.

The defendant sought to prove by experts that turpentine could be stored without danger and was not an explosive. E. C. Shorey, government chemist, and J. T. Crawley, also a chemist, gave expert evidence, the latter by letter. They claimed that turpentine, coal oil, benzine are composed of combustible elements, hydrogen and oxygen, but oxygen is absent, and their vapors must be mixed with air before they will burn. Crawley held that turpentine was not an explosive. Judge De Bolt held that there had been a violation of the statute and imposed the same fine that had been fixed by Judge Wilcox.

EDINGS ANSWERS.

Judge Edings has filed an answer to the writ of mandamus granted by Judge Perry to the Kapiolani Estate, because of his refusal to hear a case against the Kona Sugar Co. He states that the petition had never been presented to him, but says that he did receive from C. W. Ashford a telegram reading: "When will you hear my petition?" but that it was meaningless to him and not accompanied by money for a reply. He says that he did not feel it to be his duty to expend money to enable counsel to transact business outside the jurisdiction of the court. He says also that G. K. Wilder did not present a petition for the Kapiolani Estate and could not do so as he was attorney of record for the Kona Sugar Co.

LOW NOT SATISFIED.

Eben Low has asked to file evidence in opposition to Robert Hind's motion for a receiver and sale, claiming that he did not intend to waive such a right in the motion decided, and did not stipulate that a decision as to receiver be made without evidence.

A demurrer has been filed to the amended petition in the American Savings and Trust Co. case.

Judgment for plaintiff for \$1401 was given by declaration by Judge Robinson yesterday in the case of Hawaiian Hardware Co. vs. Kamalo Sugar Co.

JURIES EXCUSED.

Both petit juries serving in the First Circuit were excused yesterday by Judges De Bolt and Robinson. They were thanked for their faithful services and promised pay as soon as the Legislature made the necessary appropriation.

The term has practically ended though Judge De Bolt has three divorce cases on his calendar for this morning. Altogether over a hundred criminal cases were disposed of during the term.

JAPANESE DOCTORS.

An appeal to the Supreme Court has been taken in the case of T. Inouya et al. vs. H. E. Cooper, Treasurer, from the decision of Judge Gear denying defendant's demurrer. The suit involves the licenses of Japanese doctors which Cooper threatened to annul because they were granted by a Board of Examiners illegally appointed by Treasurer Wright.

A stipulation is filed so that the case may go up on the present record. A. N. Kepoikai is substituted for H. E. Cooper as defendant.

COURT NOTES.

A non-suit was granted by Judge Robinson in the case of F. Wundenberg vs. George Markham and J. H. Cummings.

A nolle prosequi was entered in the case of John Gorin charged with assault.

A garnishment suit has been instituted by the First National Bank against the Hawaiian Supply Co. and others. The case of Ching Heong Mon vs. Hee Cho was dismissed without prejudice yesterday.

Judge Robinson granted a divorce to Rebecca Crawford from Willie Crawford, awarding her \$20 per month alimony.

CONGRESS AND HAWAII'S NEEDS

The action demanded of Congress for relief measures in Hawaii and also in the Philippines, and which has thus far met with such a tardy and reluctant response, points to one of the greatest dangers which we are likely to encounter in our attempt at extending our government over distant and alien races.

The trouble in these cases arises from the fact that our legislators, and the American people generally, are slow to realize that having assumed control over these far-away lands, we are bound in all honor and justice to consider their peculiar needs from a broad and unselfish point of view. While their desires and demands will oftentimes necessarily be quite different from any coming from our own people, owing to their geographical position and for other reasons, it will not do for us to overlook them, or subordinate their interests entirely to our own.

Hawaii wants and must have a modification of our Chinese exclusion laws to give her the kind of labor that her sugar plantations require, and the Philippine Islands are calling no less insistently for currency and labor legislation fitted to their needs and present conditions. It will not do for us to say that these interests conflict at some points with our own, or that they are not of enough account to call for any

immediate or radical action on our part. They may not loom up very large in our own eyes, it is true, but if, as stated by the people directly involved, they are of imperative importance to their well-being, the demands should not only be heard but given at least respectful heed.

Nothing more deplorable or disastrous could possibly happen to Hawaii or the Philippines than that, having once been brought into a dependant relation with the United States, we should, in effect, ignore them, or treat them in any sense as still an alien. Far better for them would be a local government, independent and absolute within its sphere, even if poorly administered, than a dependency upon a distant power which cared nothing for their interests, except so far as they might be exploited for selfish and mercenary purposes.

We might apply here the homely adage that "you cannot have your cake and eat it too." If we are to expand in a truly imperialistic way and extend our sway over other lands, we must be ready to accept all the peculiar responsibilities and duties that go with such extension. If it pleases our powers-that-be to set up the American flag over some little island in the Pacific, it will never do for us a little later on to practically disown the fledgling which we have thus taken under our wing and allow it to go motherless and forlorn in the world. The child of our adoption may not be very large and its little life of not much apparent consequence to us, but still we have made it ours and we are bound by humanity's sake, if for no other reason, to see that its legitimate wants are promptly and adequately provided for. — Leslie's Weekly.
